DRAFT RESOLUTION ON THE PROHIBITION OF ARMED ATTACKS ON ALL NUCLEAR INSTALLATIONS

Submitted by Mexico on behalf of the Group of 77

The General Conference, at its special session,

- (a) Recalling IAEA General Conference resolution GC(XXIX)/RES/444, and in particular its operative paragraphs 3 and 4,
- (b) Aware of the fact that an armed attack on a nuclear installation could result in radioactive releases with grave consequences within and beyond the boundaries of the State which has been attacked, and
- (c) Convinced of the need to prohibit armed attacks on all nuclear installations and of the urgency of concluding an international agreement in this regard,
1. Requests the Director General to convene at an early date a governmental expert group to draft an international agreement prohibiting armed attacks on all nuclear installations; and
 2. Further requests the Director General to keep the Board and the General Conference informed about the progress in this regard.
