PROVISIONAL AGENDA

Supplementary items requested for inclusion in the agenda

Note by the Director General

On 9 September 1960 the Director General received a communication from the Government of Italy relating to its request of 16 August 1960 for the inclusion in the agenda of an item entitled "Studies on radioactive waste disposal into the sea". [1] In this communication the Government indicated that, after further consideration, it no longer wished to have the item included in the agenda. The explanatory memorandum relating to the item, which is required under Rule 20 of the Rules of Procedure, is not therefore being submitted, and the symbol and number GC(IV)/124 will accordingly be allotted to another document.
